And, we qualify you as an internationally-recognised ESL teacher with our 120-hour online TEFL course.

We provide you with orientation and placement, as well as comprehensive teacher assistance and support, to help you make a smooth transition into your new role. # FAQ

Why would I pay for an internship?

Teaching overseas can come with its risks. You can 'do-it-yourself' but this can lead to mistakes and problems. Purchasing an internship comes with guarantees, ensuring you get what you've paid for, but also the security of knowing that you are working with an extremely knowledgeable and supportive team. By paying for an internship you avoid the horror stories, black-listed schools, and ensure you have an amazing experience. And, you make back what you spent on the programme!

How long can I go for?

That is often up to you! We offer varied lengths to the internship, and can work with you on how long you stay. It could be that you want to extend the internship, or use it as a spring board to explore other opportunities in Thailand. On top of this, we can help you find future employment in other locations around the world too!

Can I apply with a friend/partner?

Absolutely! Let us know, and we can work with our in-country team to get you all placed together

Will there be other teachers?

We guarantee that there will be another TEFL teacher from our internship in your placement area. But you will find TEFL teachers all over Thailand!
